

Choose a job you love, and
you will never have to work a
day in your life.

Confucius

“Passion is energy.
Feel the power that
comes from focusing on
what excites you.”

– OPRAH WINFREY

“The only way to do
great work is to love
what you do. If you
haven't found it yet,
keep looking. Don't
settle. As with all
matters of the heart,
you'll know when
you find it.”

- Steve Jobs

to settle → to accept something that is not good enough for you (*Example:* Don't settle for a job you don't like)

matter of the heart → something about love or feelings (*Example:* This is a matter of the heart)

to excite → to make someone feel happy and interested (*Example:* The new project excites the team)

Read the quotes. What one thing do they all mean? Do you agree with this idea?
Is your job your **passion**? Does your work **excite** you? Are you still **looking for** it?

two years later...

Life takes unexpected turns.

2. Why is **Siobhan** worried about her reputation in the art market?
3. Why does **Jaxon** feel betrayed by the company he worked for?

What I Know at 68 I Wish I Knew at 40

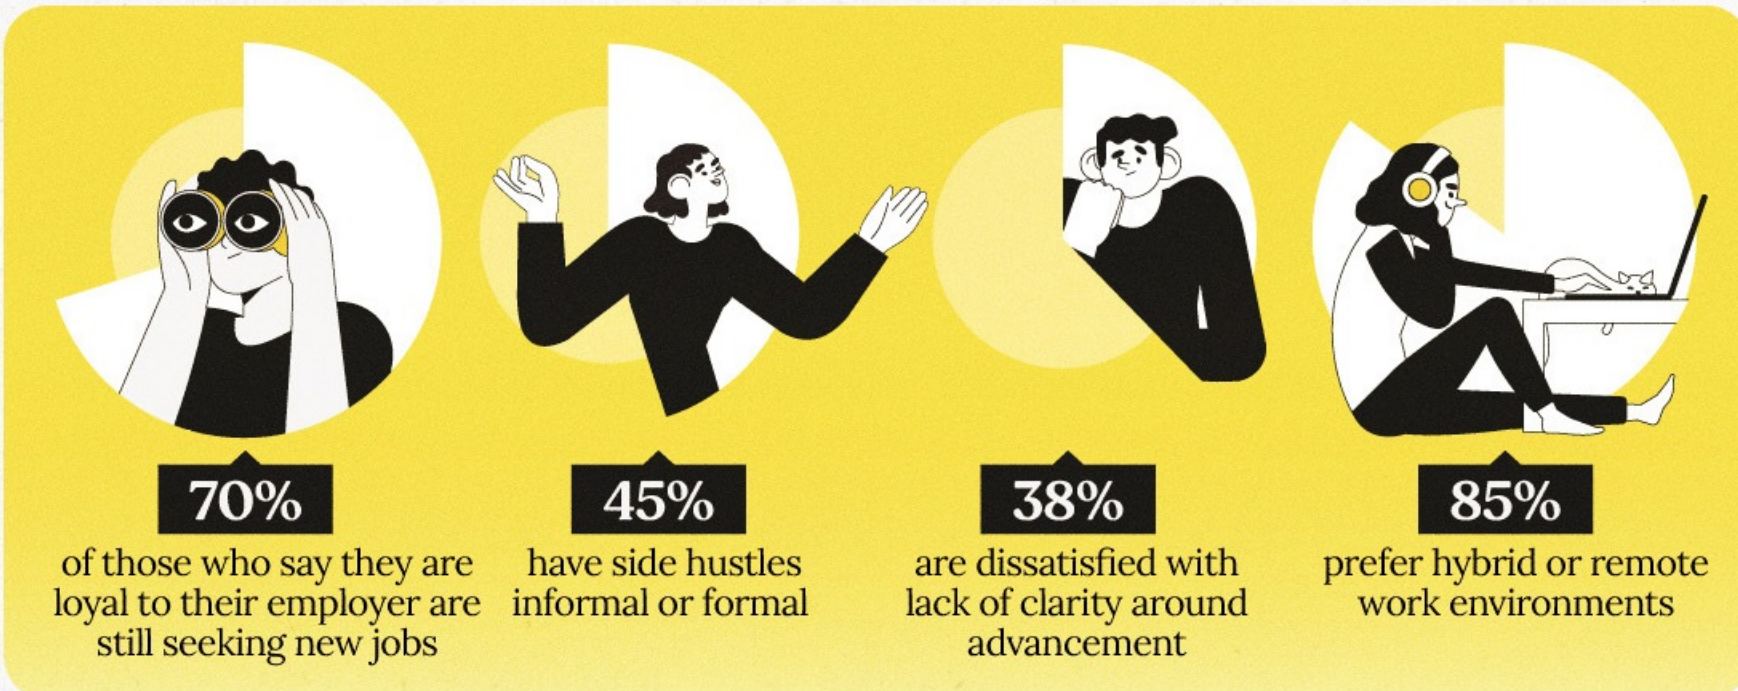

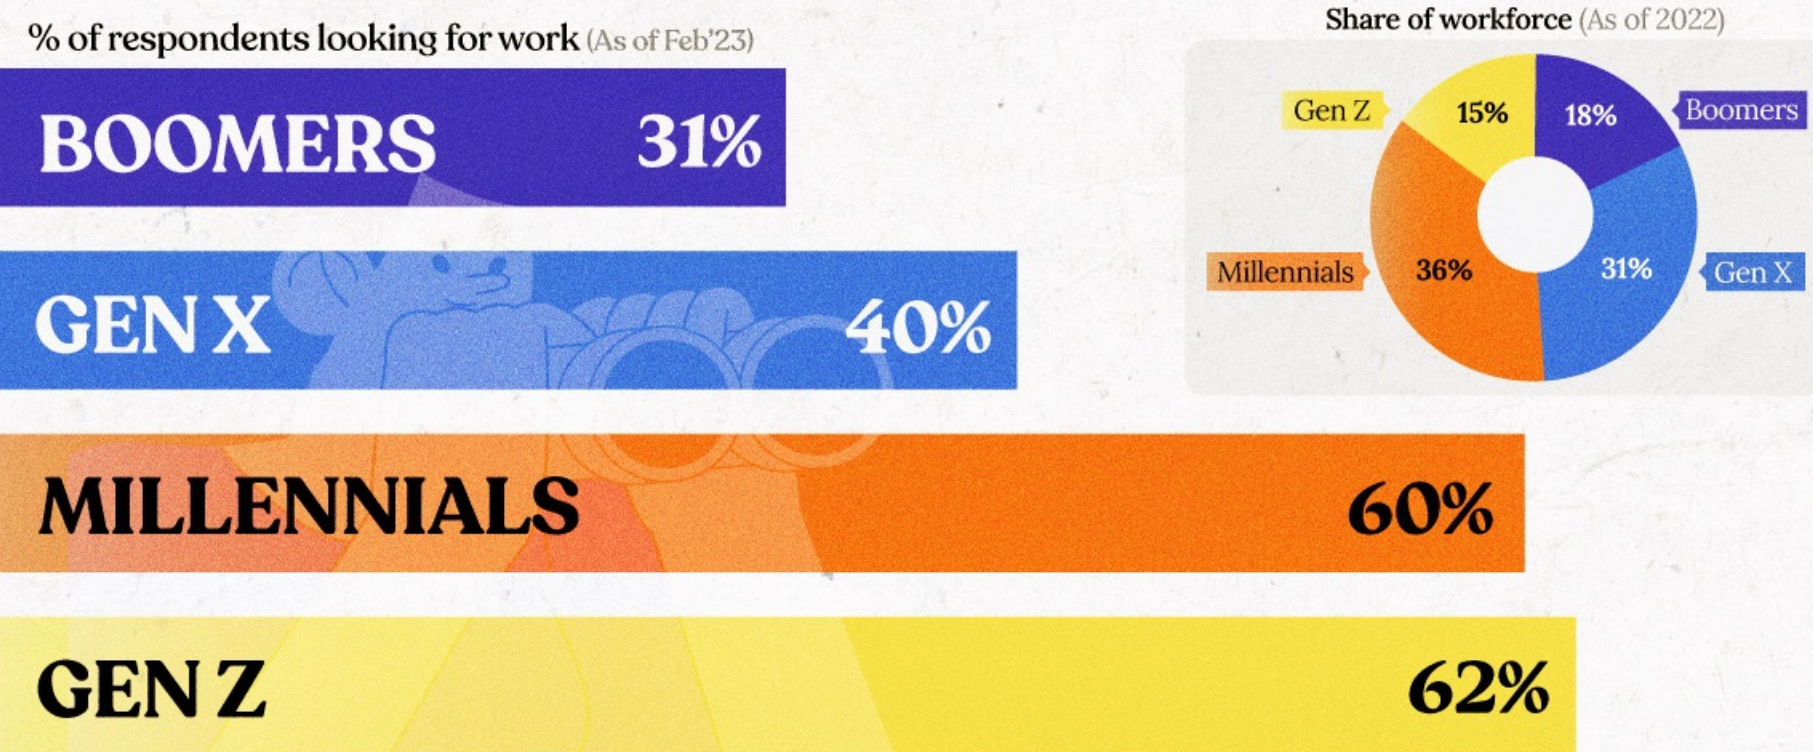

Read the statements below.
Mark each one as **Myth** or **Brutal Truth**.
Then, watch the video to see which ones Ronnie agrees with.

1. If you find a job you love, you will never truly work a day in your life.
2. Your career is a simple transaction where you give time to get money.
3. The company is a second family that will always support you in a crisis.
4. If you leave or retire today, the machine will keep going without you.
5. Success and promotions are the only ways to define who you really are.
6. A company will move on without missing a beat if your health fails you.

- Ronnie says a job is just time for money. If you stopped getting paid tomorrow, would you still show up for "love," or would you leave immediately?
- "The machine keeps going without you." Does this idea make you feel depressed and unimportant, or does it make you feel free and less stressed?
- Ronnie talks about "proper balance." What is one hobby or personal activity you would never sacrifice, no matter how much a company offered to pay you?

GEN Z'S OPEN RELATIONSHIP WITH EMPLOYERS

The majority of people between the ages of 18 to 42 are actively or passively looking for a new job, with Gen Z leading the way.

Here's one more opinion on the topic.
Fill in the blanks, then watch the short video and check your answers:

"I know everybody loves **to talk crap** about other a)_____, but if you want **to trash** Gen Z, you can't do it in front of me. I don't think that they are b)_____; I actually think that they are c)_____ for not **tying their self-worth into** their jobs - because I did that.

I'm a senior Millennial. I graduated in a very d)_____ time. I was working some of my first jobs in like 2008, when the e)_____ was bad, and I was sort of **ushered into** the professional workforce by Gen Xers and Baby Boomers who truly believed that **having your butt in the seat** from as early as possible to as late as possible was the sign of f)_____ and not just, you know, inefficiency. You never get that time back. Your job is not your g)_____. You cannot give everything to your job, so don't."

- 1. **dedication**
- 2. **generations**
- 3. **weird**
- 4. **economy**
- 5. **lazy**
- 6. **family**
- 7. **geniuses**
